

Virtual Servers: Specs & Prices

The following links will give you a brief overview of Commerce Connections® website hosting costs and capabilities as well as virtual server sizes and costs:

- Server A
- Server B
- Server C
- Register a Domain Name
- Additional Services
- Transfer of DNS
- Invoicing
- Speed
- Virtual Server Agreement/Contract, Terms and Conditions

Server A: (Your own Virtual Server)

- 250 MB of space with no additional usage (bandwidth) charges.
- Apache 1.3 Web Server.
- FreeBSD 4.2 UNIX OS.
- One Telnet/SSH shell account.
- Complete FTP control over the server.
- One non-anonymous FTP account.
- One POP/IMAP account with unlimited e-mail aliases and autoresponders.
- Full cgi-bin (many pre-configured CGIs) and log file access.
- Analog, http-analyze, and other site traffic statistical applications.
- TWIG web-based e-mail applications.
- Majordomo, PGP, Procmail, and other e-mail utilities.
- Dynamic module support.
- Add-ons (additional charges):
 - MySQL, mSQL, PostgreSQL database applications.
 - SSL and other e-commerce applications and services.
 - RealSystem Server and other multimedia applications.
 - Microsoft FrontPage 2000 server extensions.
- Triple data backup.
- Redundant OC-3 Connectivity.
- Technical Support by e-mail within 24 hours.
- Setup fee is \$50.00.
- Monthly cost is \$55.00.
- Additional disk space is \$7.50 per 25 MB.

Note: Server A configuration is not suitable for multiple domain hosting.

Server B: (Your own Virtual Server suitable for sub-hosting websites)

- 600 MB of space with no additional usage (bandwidth) charges.
- Apache 1.3 Web Server.
- FreeBSD 4.2 UNIX OS.
- One Telnet/SSH shell account.
- Complete FTP control over the server.

- **Unlimited anonymous and non-anonymous FTP accounts.**
- **Unlimited POP/IMAP account with unlimited e-mail aliases and autoresponders.**
- **Full cgi-bin (many pre-configured CGIs) and log file access.**
- **Analog, http-analyze, and other site traffic statistical applications.**
- **TWIG web-based e-mail applications.**
- **Majordomo, PGP, Procmail, and other e-mail utilities.**
- **Dynamic module support.**
- **Add-ons (additional charges):**
 - **MySQL, mSQL, PostgreSQL database applications.**
 - **SSL and other e-commerce applications and services.**
 - **RealSystem Server and other multimedia applications.**
 - **Microsoft FrontPage 2000 server extensions.**
- **Triple data backup.**
- **Redundant OC-3 Connectivity.**
- **Technical Support by e-mail within 24 hours.**
- **Setup fee is \$50.00.**
- **Monthly cost is \$95.00.**
- **Additional disk space is \$7.50 per 25 MB**

Note: Server B configuration is suitable for multiple domain hosting.

Server C: (Your own Virtual Server suitable for sub-hosting websites)

- **1.2 GB of space with no additional usage (bandwidth) charges.**
- **More memory and higher concurrent process limit.**
- **Apache 1.3 Web Server.**
- **FreeBSD 4.2 UNIX OS.**
- **One Telnet/SSH shell account.**
- **Complete FTP control over the server.**
- **Unlimited anonymous and non-anonymous FTP accounts.**
- **Unlimited POP/IMAP account with unlimited e-mail aliases and autoresponders.**
- **Full cgi-bin (many pre-configured CGIs) and log file access.**
- **Analog, http-analyze, and other site traffic statistical applications.**
- **TWIG web-based e-mail applications.**
- **Majordomo, PGP, Procmail, and other e-mail utilities.**
- **Dynamic module support.**
- **Add-ons (additional charges):**
 - **MySQL, mSQL, PostgreSQL database applications.**
 - **SSL and other e-commerce applications and services.**
 - **RealSystem Server and other multimedia applications.**
 - **Microsoft FrontPage 2000 server extensions.**
- **Triple data backup.**
- **Redundant OC-3 Connectivity.**
- **Technical Support by e-mail within 24 hours.**
- **Setup fee is \$50.00.**
- **Monthly cost is \$245.00.**
- **Additional disk space is \$7.50 per 25 MB**

Note: Server C configuration is suitable for multiple domain hosting.

Additional Services:

- **CyberCash (credit card capability), \$50.00 setup fee and \$20.00 per month.**
- **SSL encryption (Secure Socket Layer), \$50.00 setup fee and no monthly charge.**
- **VeriSign can also be added, if desired, at additional cost.**
- **Register a Domain Name:**
- **If you are unfamiliar with this procedure, we will be glad to assist you.**
- **Transfer of a Domain Name to one of our servers:**
- **A very simple procedure, which we can talk you through if you are not already familiar with it.**

Invoicing: Can be setup on a quarterly, semiannual or annual basis, regardless of server choice, including just hosting a website.

Speed: Our servers are among the very fastest in the country with up to 155 Mbps of throughput via the massive line capabilities of redundant OC-3 connectivity. (There are T-1's, T-3's, DS-3's and then the big boys, OC-3's).

Simply stated: We're fast and we're good! :-)

Note: All prices are given in US dollars and are subject to change without prior notice.
